SUPPORT YOUR CHAMBER OF COMMERCE

### Definition of Amateur

It shall consist of Clubs which adopt the definition of an amateur, viz.: to be one who has not entered into an open competition; for either stake, public or admission money; or an entrance fee; or competed with or against a professional for any prize; who has never taught, pursued or assisted in the pursuit of athletic exercises as a means of livelihood; whose membership of any rowing or athletic club was not brought about, or does not continue, because of any mutual agreement or understanding, expressed or implied, whereby his becoming or continuing a member of such club would be of any pecuniary benefit to him whatever, direct or indirect; who has never been employed in any occupation involving the use of oar or paddle; who rows for pleasure or recreation only, and during his leisure hours; and who does not abandon or neglect his usual business or occupation for the purpose of training for more than two weeks during the rowing season; and who has never pawned or sold any medal or trophy won by him in any aquatic or athletic contest; and who has never entered any such under a name other than his own.

### Classification of Oarsmen

An intermediate oarsman is one who has never been a winning oarsman in an intermediate or senior race.

An intermediate sculler is one who has never won an intermediate or senior race.

A junior oarsman is one who has never won a race.

A junior sculler is one who has never pulled in a senior or won an intermediate or junior sculling race.

These rules may be varied to permit a junior oarsman or sculler to compete throughout the continuance of any regatta as a junior in as many separate events as such contestant may have been properly entered.

These definitions apply to shell boats only. Races in working boats (which term includes all boats except shell boats) will not affect the status of any oarsman or sculler as a junior or intermediate. Competition with members of his own club, or private matches (a private match being understood to consist of a competition between representatives of not more than four clubs) will not affect the standing as an intermediate or junior oarsman or sculler.

The races are open to the members of all Canadian Amateur Rowing Clubs affiliated with the Association, which have been duly organized three months prior to the opening of the Regatta, and to all clubs in England or Europe affiliated with the Amateur Rowing Association of England, and clubs in the United States recognized by the National Association of Amateur Oarsmen.

SPELLS A LIVE TOWN

# OFFICIAL PROGRAMME, 1920. SECOND DAY

The course is one mile and a half with turn. The straight-away course is 1 mile, 550 yards, the Henley distance. All senior events to be rowed straightaway. All junior events, with the exception of the eights, to be rowed with a turn, unless otherwise arranged. The Umpire will start the races promptly. The start will be made by gunshot after the warning "Get Ready."  
Any boat not at its post at the time specified shall be liable to be disqualified by the Umpire.

If the Umpire considers the start a false one, he shall at once recall the boats to their stations by gunshot from the Umpire's boat, and any boat refusing to start again shall be disqualified.  
Coaching on any instruction given by any spectator may subject the contestant or crew to disqualifications by the Umpire.  
Positions number from Grand Stand Side.  
Buoys must be turned from port to starboard.  
Only winners of trial heats shall qualify for finals.

**Colors are as follows**

## MINIATURE WAR MEDAL

If you were in the war, wear miniatures of the medals you won. If your son, husband or brother was killed, decorate his picture with the decorations he won fighting for freedom. Most soldiers are entitled to the 1914-15 Star, the British General Service Medal and the Allied Star. These make beautiful brooches.

Any of these \$4.00 or \$10.00, the set of three, with ribbon, post and tax paid to your home.

ST. CATHARINES—CITY OF HOMES

SUPPORT YOUR CHAMBER OF COMMERCE

## St. Catharines Chamber of Commerce

### Just what the Chamber is

It is necessary that there should be a thorough understanding of just what the Chamber of Commerce is. It is entirely a practical membership organization. It cannot perform miracles. It operates along strict business lines. Its record of accomplishments will be in direct ratio to the amount of time and support given to the organization by the membership. It has no mythical method by which it can solve all of the ills or evils of the community, or no system by which it can settle all the troubles of the individual members. It can be successful only if its members give both of their time and money, and its success is written in the terms of service of its members. How much of the things the members want done will be accomplished, therefore, depends entirely on the prompt response to the calls from the Board. Its sole revenue is derived from the dues of its membership. Like any other business, it requires money as its working capital, and the Board must naturally restrict its scope of work so that it will come entirely within the total receipts from these membership dues.

### Of Value to Every Citizen

The Chamber is an organization which is of vital interest and value to every citizen. Its province is to deal intelligently and constructively with every matter connected with the interests of commerce, industry and civic betterment. It is an organization of as much to the interests of the private individual as to the largest business concern of the community, for it realizes that no portion of the community can prosper at the expense of another. It works through its widespread membership to the benefit of individuals through the improvement of the condition of all. It translates ideals into actualities. It concentrates the efforts of public-spirited citizens upon the problems of the community. It organizes co-operation among individuals. It plans for the future. It is a Committee of the Whole for the welfare of the community.

### This Work Will Expand

As the organization continues to broaden its scope of activities and as its record of accomplishments continues to expand this mass of business and this flood of inquiries becomes heavier and heavier.

Order by No. 19-950

**T**HIS is a splendid boat of good construction. It has a thoroughly dependable 3 h.p. St. Lawrence Motor with battery ignition, tested and installed in centre of boat.

The keel is of Georgia pine, the ribs of rock elm, spaced in three-inch centres and the planking of cedar, ensuring lightness and strength. Four cross seats will comfortably accommodate eight persons. Galvanized gasoline tank holds six gallons.

Completely fitted with brass Cleats on Bow and Stern Decks, side steering wheel, wire centre tiller line and rudder. Speed about eight miles per hour. A most comfortable and serviceable Pleasure Boat. Freight paid..... **350.00**

It can be run anywhere that there is water enough for the ordinary rowboat. The propeller is in a Tunnel and the boat may be pulled up on the shore without danger of injuring it.

Showing Protected Propeller and Rudder.

*Tested in water before  
leaving factory.*
