### Definition of Amateur

It shall consist of Clubs which adopt the definition of an Amateur, viz.: to be "one who has not entered into an open competition; or for either a stake, public or admission money, or entrance fee; or competed with or against a professional for any prize; who has never taught, pursued or assisted in the pursuit of athletic exercises as a means of livelihood\*; whose membership of any rowing or other athletic Club was not brought about, or does not continue, because of any mutual agreement or understanding, expressed or implied, whereby his becoming or continuing a member of such Club would be of any pecuniary benefit to him whatever, direct or indirect, who has never been employed in any occupation involving any use of the oar or paddle, who rows for pleasure or recreation only, and during his leisure hours, and who does not abandon or neglect his usual business or occupation for the purpose of training for more than two weeks during a rowing season,\*\* and who has never pawned or sold any medal or trophy won by him in any aquatic or athletic contest, and who has never entered in any such contest under a name other than his own."

\*This clause is intended especially to prevent any so-called Amateur Oarsmen being surreptitiously compensated for rowing, as for instance, by being furnished lucrative employment in sinecure positions.

\*\*The Executive Committee of the Association have decided that the last rule of this definition does not apply to time taken up by contestants in travelling to and from regattas.
